

HWUACP8

Barrier-Free Wall Mounted Electric Drinking Fountain

FEATURES & BENEFITS

Activation

Unit is easily activated by front and side push pads.

Maintenance

Easily serviced with external stream height adjustment and built-in 100 micron strainer.

Finish

Decorative and durable Sandstone powder-coated paint skirt topped with a stainless steel basin provides an easy to clean surface.

Bubbler

Flexible rubber hooded bubbler head protects against occasional mishaps.

OPTIONS

- Glass Filler: Model 5551, push lever operated, self-closing, polished chrome-plated brass, deck mounted, gooseneck cold water glassfiller faucet.
- Filter: Model 6426, 12" x 2", in-line lead removal element that reduces lead from incoming water supply.

SPECIFICATIONS

Haws model HWUACP8 pressure drinking water cooler shall deliver a minimum of 8 gph (30.3 LPH) of water at 50°F (10°C) cooled from 80°F (26.7°C) inlet water at 90°F (32.2°C) ambient. Front and side mounted push pads requiring less than 5 pounds of force to activate that initiate water flow through a flexible hooded rubber bubbler having a non-squirt feature. An internally mounted valve and adjustable stream regulator shall control water flow between 20 and 90 psig. R-134a refrigeration system shall be hermetically sealed and refrigerant flow shall be capillary tube controlled. An adjustable thermostat having an off position shall control refrigeration system. Stainless steel top shall have integral drain strainer. Heavy-duty galvanized frame shall support Granite powder-coated galvanized exterior panels. Built-in 100 micron strainer and external stream height adjustment are enclosed by a removable lower panel which provides easy access for installation.

APPLICATIONS

Perfect for either public or private settings, our barrier-free electric water coolers are a great fit in indoor environments. This series is precisely mounted, making it a nice addition to any surrounding. Beautiful satin finish basin help to maintain the fountains overall appeal so it always remains looking as new as it did when it was installed. Specifically, this type fountain may be placed in settings such as: office buildings, shopping malls, and other indoor environments where there is a demand for a chilled water source and/or wheel chair access.
