

MODEL 7020

This fountain is certified to NSF/ANSI 61.

GENERAL

Two-station face-mounted fountain, one-piece non-corrosive stainless steel number 300 series with brushed satin finish. Fountain has stream splitter design basins with perforated grid strainers. Basin shall be 31"W x 14"D x 15"H

BUBBLER

Single-stream angle jet projector. Combination self-closing pushbutton type with integral automatic stream regulator and hood guard.

PUSHBUTTON ACTUATION MECHANISM

Light touch pushbuttons conveniently located on the front of the unit do not require grasping or twisting.

AUTOMATIC STREAM HEIGHT REGULATOR

Self-closing assembly is located inside unit to prevent tampering. Unit resists corrosion and liming. A constant stream height is automatically maintained under line pressures that vary from 20 to 105 psi.

INLET STRAINER

Easily cleaned in-line strainer screen traps particles of 140 microns or larger before they enter the waterway.

WATER INLET

3/8" O.D. Tubing

DRAIN OUTLET

1-1/4" tube outlet for 1-1/4" slip joint connection.

SUGGESTED SPECIFICATIONS

Fountain shall include two contour-formed basins to eliminate splashing and standing water. Projectors shall be single-stream, mound-building type with integral hood guard and anti-squirt feature. The manufacturer shall certify the unit to meet the requirements of NSF/ANSI 61, and the Safe Drinking Water Act.

Note: Continued product improvement makes specifications subject to change without notice. See Halsey Taylor website for most current spec sheet.
